Volunteers can choose to be the smiling face who welcomes visitors to our nationally recognized, award winning facility. As a 'greeter' you will answer the phone, receive parents as well as school groups who visit, offer citizens educational tours known as Safe-and-Sound-Walk-Arounds and assist with various clerical tasks needed daily.

We also utilize our volunteers as program facilitators & assistants; This may involve providing a short, interactive safety presentation to elementary aged children or facilitating 'hands-on' activities -- from practicing fire escape drills in the safety house to bicycle safety rules in the outdoor village.
